MEPRO HUNTER

Sniper's Night Vision Weapon Sight with x4 or x6 magnification.

NIGHT VISION

The **MEPRO HUNTER** is a compact and lightweight night vision weapon sight, with x4 or x6 magnification based on Gen-II or Gen-III image intensifier tubes. It is a highly durable design for the most demanding battlefield conditions. Its high accuracy red projected reticle and brightness adjustment ensures fast ballistic compensation in long and medium range targeting. Powered by two commercially available "AA" type batteries, the sight provides up to 60 hours of continuous operation under normal conditions. The Mepro Hunter is designed to easily fit sniper weapons and machine guns.
