- › Compact and lightweight
- › Based on GEN-II+ or GEN-III image intensifier tubes
- › Quick ballistic corrections

MEPRO MINI-HUNTER

Night Vision Weapon Sight with x2 Magnification

NIGHT VISION

The **MEPRO Mini-Hunter** is a compact and lightweight, dual use x2 night vision weapon sight and handheld device. It is based on GEN-II+ or GEN-III image intensifier tubes. Easy reticle vertical adjustments enable quick zeroing corrections. Highly durable design for the most demanding battlefield conditions and changing environments, the Mini-Hunter offers passive ballistic reticle with external bore-sighting mechanism in a Picatinny adaptor. Powered by a single , commercially use "AA" battery, it provides up to 40 hours of continuous operation. Designed to fit various weapon types such as rifles, assault rifles, rocket launchers and machine guns.
