## MEPRO MX3-F/MX3-T

x3 Magnifying Scope with Integrated Side Flip Adaptor

- › Compatible with other optical weapon sights
- › Integrated side flip adaptor
- › No zeroing required
- › Wide field of view (FOV) – enables rapid target acquisition
- › Increases the effective range of reflex sight
- › Windage and elevation knobs for precise alignment adjustment
- › Simple to attach – doesn't interfere with firing
- › Designed for the commercial markets

# MEPRO MX3-F/MX3-T

## x3 Magnifying Scope with Integrated Side Flip Adaptor

The **MEPRO MX3-F/MX3-T** is a reflex sight magnifier with an integrated side flip adaptor. It offers 3X magnification to enhance the precision and effectiveness of Meprolight's reflex/red dot sights (MEPRO M21, MEPRO MOR, MEPRO RDS) and other optical sights, with no need to re-zero the sights.

The MEPRO MX3-F/MX3-T attaches to the Picatinny rail immediately behind the reflex sight, and features a quick release adaptor. When not being used, it is offset to the right side and can be easily flipped back into place when the shooter needs to engage targets at longer distances.

**The two models, MEPRO MX3-F (Folded) and MEPRO MX3-T (Tactical) are differentiated by the flip to side mechanism. Mepro MX3-F has a secured push button and the MEPRO MX3-T has a low weight, quick pull back (or forth) mechanism.**

The MEPRO MX3-F/MX3-T is rugged, compact, lightweight, and manufactured to the highest military standards to assure years of reliable operation.

Technical Specifications	MX3-F (Push Button)	MX3-T (Pull Back)
Magnification	3X	
Weight [gr.] (w. Adaptor)	335	288
Dimensions (LxWxH) [mm]	101x66x75	101x55x75
Lens Diameter [mm]	27	
Field of View (FOV)	7.5°	
Eye Relief [mm]	56	
Diopter Range	+2 to -2	
Weapon Adaptor	Picatinny Rail	
Working / Storage Temperature	-40°C to 60°C / -40°C to 71°C	
Immersion	1m for 1h
