

## MEPRO RDS

Electro Optical Red Dot Sight

- › Optimized for the commercial markets
- › Rapid target acquisition
- › Large display window
- › Numerous reticle brightness levels
- › Auto shut-off for low power consumption
- › Low battery indicator
- › AA battery included
- › Durable & Lightweight
- › Minimal Maintenance
- › Compatible with NVG & with other magnifier scopes

# MEPRO RDS

## Electro Optical Red Dot Sight

OPTICS

The **MEPRO RDS** electro optical red dot sight is an energy-efficient, compact sight that provides thousands of operating hours while utilizing a single "AA" commercial battery. Featuring a LED technology and rugged design, the sight assures reliability under the harshest environmental conditions.

The Sight optimized for the civilian market. With its large display window and clearly-defined Red-Dot, the MEPRO RDS ensures rapid target acquisition with both eyes open. Offering four easily switchable reticle brightness intensities, the MEPRO RDS fits every hunting scenario.

To facilitate night operations and long-range target engagement the MEPRO RDS is compatible with GEN II and GEN III NVGs as well as with magnifying scopes. Its human-engineering allows positioning of NVGs and magnifiers close to the sight's optics with no decrease in the field-of-view and without compromising convenient switch operation.

### Technical Specifications

Magnification	x1
Display Window Dimensions	33 x 20 mm
Eye Relief	Unlimited
Red-Dot Size	2.0 MOA
Power Supply	1x AA Battery (Alkaline / Lithium)
Energy Saving System	Auto shut-off / Auto power-resume
Dimensions (L x W x H)	< 116 x 60 x 68 mm
Weight (with integral picatinny, w/o battery)	< 300 g
Weapon Mount	Integral Picatinny (MIL-STD 1913)
Brightness	Four variable brightness
