- › MIL-STD qualified

MEPRO RDS PRO V.2

Electro Optical Red Dot Sight

OPTICS

The MEPRO RDS PRO V.2 , an upgraded version of the MEPRO RDS PRO has the optimized combination of:

- Supporting multiple selection of aiming patterns
- Supporting Red or Green aiming patterns
- 16 brightness positions (12 Day + 4 Night)
- Thousands of operating hours while utilizing a single "AA" commercial battery
- Clear transparent large display window

The new RDS PRO V.2 sight is available with both Red and Green reticles, allowing each user to choose the optimized aiming pattern color according to his own preferences or environmental conditions.

To facilitate night operations and long-range target engagement the MEPRO RDS PRO V.2 is compatible with GEN II and GEN III NVGs as well as with Magnifying Scopes. Its human-engineering allows positioning of NVGs and Magnifiers close to the sight's optics with no decrease in the field-of-view and without compromising convenient switch operation.
