1. MEPRO FORESIGHT Advantages

- The Mepro Foresight is the first augmented red dot sight, projecting real-time data to the user's FOV (Field of View).
- The Foresight is powered by a rechargeable battery using the commonly utilized USB-C cable.
- The Foresight Bluetooth connectivity allows the shooter to connect to Meprolight mobile APP (Android and iOS) and select from the database of reticles and to update the sight when new features are available.

Highlighted Features

- An internal compass.
- Battery level indicator.
- Five pre-set tactical reticles (which can be changed/programmed according to the user's preferences).
Bullet Counter and Magazine Countdown Counter.

An integrated light sensor that automatically adjust reticle brightness.

Mobile APP advantages

Automatic Digital Zeroing using Double Shoot® App.

Over twenty reticles, five of which can be uploaded at any given time.

Upload previously-stored profiles from your mobile App to the sight.

A rich selection of reticles for all tactical scenarios.

Frequent firmware updates and features.

2. Main Components

**Keypad Select Button**
- Short press the Select button ⊗ to turn the device ON.
- Press and hold the Select button ⊗ for 3 seconds to turn OFF.
- Use this button to select menu options.

**Keypad Navigation Buttons**
Use the UP ↗; DOWN ↘; LEFT ↙; RIGHT ↘ buttons to navigate menu options.
**Light Sensor Window**
Sensor window for automatic brightness adjustment of the display.

**USB Charge Connector***
Open the rubber cover to gain access to the USB (type-C) charge connector.

* Non-removable battery inside. To charge the device, use only MEPROLIGHT approved USB cable (type-c).

**Shooter’s-Side Lens**
Mount Adapter

To mount on a weapon, first pull the levers outwards to the open position.
3. Power-Up & Quick Adjustments

- Short press the Select button \( \bigcirc \) to turn the device ON.
- Press and hold the Select button \( \bigcirc \) for 3 seconds to turn OFF.

Figure 1: Keypad
"Power-Up Display" will show when you power-up the FORESIGHT.

- Adjust the Brightness by clicking the UP ; DOWN buttons.
- Change the Reticle type by clicking the RIGHT button.
- Reset the magazine countdown counter by clicking the LEFT button.

Click on the Select button to toggle between these modes:

- Menu Mode (see in chapter 5).
- Power-Up Display.
Power-Up Display

- The following indicators will appear on the display for 15 seconds when you power-up the FORESIGHT:

![POWER-UP Display Diagram]

</tr>
</tbody>
</table>
**NOTE:** Operating the FORESIGHT in the presence of magnetic and/or electromagnetic fields may affect the accuracy of the compass.

**NOTE:** Use the *Meprolight* mobile APP to determine the capacity of your magazine. Enter a number for a "Full" level and a "Critical" level. The Magazine Countdown Counter accuracy depends on which weapon system and ammunition are being used.

***NOTE:** The Bullet Counter accuracy depends on which weapon system and ammunition are being used.

- The following indications will always be on display: Compass; Roll Meter; Reticle.
- To show all the active indicators momentarily, click any of the keypad buttons.
Brightness Adjustment

**NOTE:** When adjusting the Brightness level manually, the Auto-Brightness feature is disabled.

- Click the UP  and DOWN  buttons to adjust the display BRIGHTNESS (0 ... 9).

![Figure 3: BRIGHTNESS Adjustment](image)

- To restore the Auto-Brightness feature, press and hold the UP  button for 3 seconds.

- To return to the last saved manual Brightness setting, click any of the following buttons: Select  or UP  or DOWN .
Reticle Adjustment

- Click the RIGHT button to toggle between 5 reticle patterns.

Figure 4: RETICLE Adjustment
Magazine Countdown Counter

- Click the LEFT button to reset the Magazine Countdown Counter.

Figure 5: MAGAZINE COUNTDOWN Counter

NOTE: Use the Meprolight mobile APP to determine the capacity of your magazine. Enter a number for a "Full" level and a "Critical" level. The Magazine Countdown Counter accuracy depends on which weapon system and ammunition are being used.
4. Menu Mode

- Click the Select button to toggle to the MENU MODE.

**NOTE:** There are two pages in the MENU MODE (MENU PAGE 1/ MENU PAGE 2). To access PAGE 2, keep clicking the UP or DOWN buttons.

![Menu Page 1](image)

Figure 6: MENU Mode
Click the UP ⬆️ and DOWN ⬇️ buttons to navigate (choose) any of the menu options.

Click the Select ⬤ button to select (enter/activate) a menu item.

To exit the Menu Mode, Select ⬤ the EXIT option.
LOW POWER Mode

- Choose \( \leftrightarrow \) the "LOW POWER" mode.
- Click the Select \( \bigcirc \) button to toggle between "OFF" and "ON" modes.

Figure 7: LOW POWER Mode
**NOTE:** When the "LOW POWER" mode is activated ("ON"), the following features are deactivated automatically: BLE (Bluetooth); Bullet Counter; Magazine Countdown Counter; Roll Meter; Compass.
ZEROING Mode

- Choose the ZEROING mode.
- Click the select button to enter the ZEROING mode.

Figure 8: ZEROING Mode
Click the keypad's buttons $\uparrow\downarrow\leftarrow\rightarrow$ to change the position of the reticle.

**NOTE:** The two indicators at the bottom of the display show the movement of the reticle from the last saved position. The indicators show the number of "clicks" in the Vertical axis and the Horizontal axis. The movement in each direction is limited to 60 "clicks". Each click equals 1 MOA.
- Click the Select button to show the SAVE? option on the display.

Choose ☑and Select ☑ the "YES" option to save the new reticle position.

- Choose ☕️ and Select ☑ the "NO" option to exit the ZEROING mode (without saving).
**BLE Mode**

- Choose the "BLE" mode.
- Click the Select button to toggle between "ON" and "OFF" modes.

**NOTE:** In "OFF" mode, Bluetooth is disabled, and pairing with a smartphone is not possible.
COMPASS CALIBRATION Mode

**NOTE:** To access MENU PAGE 2, keep clicking the UP or DOWN buttons.

- Mount the FORESIGHT on your weapon.
- Choose the "COMPASS CALIBRATION" mode.
- Click the Select button to initiate the calibration process.

![Figure 10: COMPASS CALIBRATION Mode](image)

**MENU PAGE 2**

COMPASS CAL.  
BULLET COUNTER  
FACTORY RESET
NOTE: Calibrating the compass in the presence of magnetic and/or electromagnetic fields may affect the accuracy of the compass.

**COMPASS CALIBRATION**

FOLLOW THE INSTRUCTIONS IN THE USER MANUAL OR MEPROLIGHT APP UNTIL STATUS IS: "COMPLETE!"

STATUS: CALIBRATING...

PRESS "SEL" TO CANCEL
Calibration Procedure

The following calibration procedure is based on moving the FORESIGHT (mounted on your weapon) in a circular pattern:

- Hold your weapon high at 12 o'clock, while tilting it up 45° above the horizon.
- Move your weapon clockwise in a circular motion to 3 o'clock, while swiveling it 45° to the right.
- Continue moving your weapon clockwise in a circular motion to 6 o'clock, while tilting it down 45° below the horizon.
- Continue moving your weapon clockwise in a circular motion to 9 o'clock, while swiveling it 45° to the left.

- Continue moving your weapon clockwise in a circular motion back to 12 o'clock, while tilting it up 45° above the horizon.

- The calibration procedure is successful when a *COMPLETE!* message appears on the display.
BULLET COUNTER Mode

- Choose ◀ ▶ the "BULLET COUNTER" mode.
- Click the Select ◐ button to enter the reset menu.

Figure 11: BULLET COUNTER Mode

NOTE: The Bullet Counter accuracy depends on which weapon system and ammunition are being used.
To reset the bullet counter:

- Choose $\leftrightarrow$ and select $\odot$ the "RESET COUNTER" option.

---

BULLET COUNTER

</tbody>
</table>
6. Operational Maintenance

The FORESIGHT should not be operated at temperatures outside the specified operating range or stored at temperatures different from the specified storage temperatures.

NOTE: Unauthorized attempt to disassemble or repair the FORESIGHT will void the manufacturer's warranty.

Charging

Figure 13: USB Charge Connector
**CAUTION:** Do not attempt to replace the battery in this device. Refer to a MEPROLIGHT authorized service provider.

- Open the rubber cover to gain access to the USB (type-C) charge connector.
- Connect the FORESIGHT to a MEPROLIGHT approved USB cable (type-C).
- Connect the USB cable to a wall charger (5V) or to a PC.
- A charge icon 🌡️ will appear on the top row of the display.

**Cleaning**

- Do not touch the optical surfaces other than for cleaning purposes.
- Before and after every use, check the optical surfaces for cleanliness and clean if required.
- After every use verify that the system is switched off.
- Clean the optical surfaces with the lens cloth provided with the FORESIGHT.
- Exceptionally dirty glass surfaces may be cleaned with a lens cleaning fluid.

NOTE: Specifications are approximate and subject to change without notice. Due to restrictions and regulations in certain countries some product configurations may not be available for sale in your country.
8. Warranty

As a standard warranty policy, Meprolight warrants its products against defects in materials and workmanship for a period of one year from the date of the original purchase.

Should your product prove to be defective during this period, please deliver it securely packaged in its original container or an equivalent, along with the proof of the original purchase date to your designated point-of-contact.

Meprolight will repair (or, at its discretion, replace with the same or comparable model) the product or part thereof which, on inspection by Meprolight, is found to be defective in materials or workmanship.

Warranty period and terms may differ from those described above and are subject to the terms and conditions of the specific sales contract.
Important Information

Meprolight is not responsible for warranty service should the product fail as a result of improper maintenance, misuse, abuse, improper installation, neglect, damage caused by disasters (such as fire, flooding, lightning), improper power supply, or service other than by Meprolight or a party appointed and authorized by Meprolight to service this product.
