

MEPRO FORESIGHT

Innovative Augmented Sight

- › Innovative optical sight providing essential tactical data projected on a transparent optical lens
- › Integral data sensors - digital compass, active leveler
- › Automatic Zeroing - Just upload your grouping, and you are good to go
- › Five preset Reticles
- › Integral shot counter and magazine bullets countdown
- › Built-in light sensor for automatic brightness adjustment
- › Mobile APP connection (Android and iOS)
- › Rechargeable battery using USB - C

MEPRO FORESIGHT

Innovative Augmented Sight

OPTICS

The Mepro Foresight offers features and benefits to shooters across a wide range of disciplines —Law Enforcement, Competitive, Professional, and Hunters—who want to upgrade their capabilities. The Mepro Foresight is the first augmented red dot sight, projecting real-time data to user's FOV (Field of View).

As a top-grade stand-alone optic, the Foresight is powered by a rechargeable battery using the commonly utilized USB-C cable. Features include an internal compass, battery level indicator, five pre-set tactical reticles (which can be changed/programed according to the user's preferences), integrated light sensor which automatically determines reticle brightness. The Foresight is unique in that its Bluetooth connectivity allows the shooter to select from the database of reticles and to update the sight when new features are available such as the Shot Counter feature.

The Mepro Foresight, first of its kind, provides greater technical advantages by allowing the user to utilize the Double Shot® App which provides benefits not seen before on an optic. Automatic Digital Zeroing without touching the optic by shooting a multi-shot group and taking a photo of the grouping to the app. The system analyzes your mean point of impact and zeroes the weapon automatically. Real time projected data provides the shooter with critical data needed to assist in accurate shot placement, while using a wide crisp viewing window.

Mobile APP advantages:

- Automatic Digital Zeroing using Double Shoot® App
- Shot Counter & Magazine bullet countdown
- Store up to 10 zeroing weapon profiles or user profiles
- Upload previous stored profiles from your mobile App to the sight
- Rich selection of reticles for all tactical scenarios
- Frequent firmware updates and features

Technical Specifications & Features

Magnification	x1
Display Window Dimensions	33 x 20 mm
Reticle Patterns	5
Power Supply	Rechargeable Battery, USB-C port
Dimensions (L x W x H)	4.6" x 2.35" x 2.68" (117 x 60 x 68 mm)
Weight	9.9 oz. (280 gram)
