

## MEPRO 02

The Ultimate Red Dot sight with Multi-pattern Reticle

- › Multi-pattern reticle with full adaptive capabilities to all tactical scenarios
- › Automatic brightness control (built in light sensor)
- › Red or green reticles
- › Compatible with NVG & with magnifier scope
- › No light signature
- › Compact, lightweight ergonomic design
- › Non reflective large display optic window
- › MIL-STD qualified

# MEPRO 02

The Ultimate Red Dot sight with Multi-pattern Reticle

OPTICS

The Mepro O2 offers the users a breakthrough and significant tactical advantage using, multi-pattern reticle with full adaptive capabilities to all tactical scenarios, all-weather/light conditions and different ammunition (for example, quick transition between 300blk super and subsonic or 5.56 caliber ballistic compensation for 100m, 200m and 300m ranges).

The Mepro O2 MIL-SPEC design offers defense, law enforcement and HLS forces, a vast range of capabilities that deliver mission flexibility and target precision – all of which contributes to mission success.

The Mepro O2 is optimized for the modern weapon platforms. Its short-length and lightweight design addresses the need for co-mounting several tactical devices on the today's weapon rail (e.g. – magnifier, laser pointer, NVGs etc.),

Mepro O2 is equipped with a light sensor and automatic brightness control system enabling clear visibility of the aiming pattern in any lighting conditions. It has an integral motion sensor and configurable sleep time of 4-8 hours for extended operation time.

## Technical Specifications & Features

Weight (gr.)	< 285 gr.
Dimensions (L x W x H)	73 x 56 x 68 mm
Window Size	25x20
Field of View (FOV)	Unlimited
Aiming Point diameter [MOA]	2 MOA
Aiming Point Patterns	Multi-pattern Reticle (up to 4 preset patterns such as Dot, Bullseye, 200m, 300m)
Click size [MOA]	0.5
Zeroing Knobs	2 (Elevation, Deviation)
Reticle Brightness	8 Day + 4 Night + Automatic Brightness
Battery Type	CR123
Weapon Adaptor	Picatinny Rail Quick Release
MIL-SPEC	MIL-STD 810G
