- › Red or Green Reticles
- › compatible with all standard NVGs& Magnifying Scopes
- › Large display window
- › Low-battery Indicator
- › MIL-STD qualified

MEPRO M5

Electro Optical Red Dot Sight

OPTICS

The **MEPRO M5** electro optical red dot sight is an energy-efficient, compact sight, which provides thousands of operating hours while utilizing a single "AA" commercial battery. Featuring battle-proven LED technology and rugged MIL-STD design, the sight assures reliability under the harshest environmental conditions.

With its large display window and clearly-defined aiming pattern, the **MEPRO M5** ensures rapid target acquisition with both eyes open. The new **MEPRO M5** sight is available with both Red and Green reticles, allowing each user to choose the optimized aiming pattern color according to his own preferences or environmental conditions.

To facilitate night operations and long-range target engagement the MEPRO M5 is compatible with GEN II and GEN III NVGs as well as with Magnifying Scopes. Its human-engineering allows positioning of NVGs and Magnifiers close to the sight's optics with no decrease in the field-of-view and without compromising convenient switch operation.

Technical Specifications & Features

Magnification	1x
Display Window Dimensions	33 x 20 mm
