

MEPRO M21

Day/Night Self-Illuminated Reflex Sight

- › No Batteries - No Switches - Always Ready for Action
- › Daytime confidence under low light conditions
- › Totally integrated day/night operation
- › Quick shooting in urban areas
- › Rapid target acquisition
- › Large Field-of-View

MEPRO M21

Day/Night Self-Illuminated Reflex Sight

THE RIGHT SOLUTION FOR MILITARY AND LAW ENFORCEMENT WHEN RUGGEDNESS AND RELIABILITY COUNT. SHOOT FASTER THAN EVER - WITH BOTH EYES OPEN

The MEPRO M21 is a maintenance-free, dual illuminated, "red dot" reflex sight especially designed for quick and instinctive accurate shooting. Developed for the IDF, this advanced optical sight is perfect while on the move in close-quarters where the use of both eyes is critical.

The MEPRO M21 provides instant, all-light aiming without batteries. Illumination of the aiming point is achieved by a fiber optic collector system during the day and by a miniature self powered tritium light source at night. Transition between the two lighting systems is instantaneous and automatic to assure good contrast between the aiming dot and the target area. The unique light collection system features fiber optic collectors on both the top and front surfaces to gather more light when shooting from within a dark enclosed space toward a bright target area. MEPRO M21 is the reliable choice. Designed and fabricated to the highest military standards to assure years of reliable operation under all field conditions.

With no switches, no battery or other external sources of power, the sight is always ready for action.

UNIQUE ADVANTAGES:

- › 30 mm diameter lens
- › Large field of view
- › Quick shooting in urban areas
- › Rapid target acquisition
- › Effective use of sight under extreme conditions, firing after physical stress and firing under pressure
- › self-illuminated
- › Always available with no loss of power
- › Operates under all weather temperature conditions
- › Reticle Options:

Technical Specifications & Features

Magnification	x1
Lens Diameter	30mm
Field of View	Unlimited with both eyes open
Eye Relief	10 to 600mm
Power source	Self Illuminated
Aiming Point Diameter	4.3MOA/5.5MOA/Triangle/ Bullseye/Open "X"
Dimensions: (LxWxH)	114x55x70mm (with picatinny adaptor)
Weight	372gr (with picatinny adaptor)
