

MEPRO RDS

Electro-Optical Red Dot Sight

The durable, aluminum bodied Mepro RDS reflex sight features a crisp 2.0 MOA red dot and a large clear crystal display window for greater FOV with both eyes open. Four brightness settings allow the shooter to adjust to changing light conditions. The technologically advanced on-off sensor shuts the optic off to preserve battery life when no movement is detected. One common AA battery provides thousands of hours of use. It comes with a Picatinny rail adaptor and is compatible with NVGs and magnifying scopes.

Proven advantages:

- > 4 reticle brightness levels
- > Large display window
- > Auto shut-off for low power consumption
- > Low battery indicator
- > Compatible with NVG & with other magnifier scopes

Highly Durable Structure

High Transparency Optic

Rapid Target Acquisition

Energy Efficient

MEPRO RDS PRO V2

Military Grade Red Dot Sight

16 reticle brightness levels for different tactical scenarios

The latest and most technical MIL-SPEC red dot optic from Meprolight® is the Mepro RDS PRO V2 New features include 16 levels of brightness for any lighting condition, day or night. Shooters can choose from numerous reticle patterns— such as 2.0 MOA dot, Bullseye or 300 Blackout—in either red or green reticle. Shooters can expect thousands of hours of use from a single AA battery.

The Mepro RDS PRO V2 is battle proven and trusted by militaries, law enforcement agencies and professional shooters world-wide. It comes with a Picatinny rail mount and is compatible with NVGs and magnifying scopes.

Proven advantages:

- > Durable and lightweight
- > 16 brightness levels; large display window
- > Auto shut-off
- > Low battery indicator
- > Compatible with all standard NVGs & magnifying scopes

Reticle options:

2.2 MOA Red/Green Bullseye

300 Blackout

2.0 MOA Dot

* More reticle options to come
